

UNIT4 R&D Spain

UNIT4 R&D is one of the largest software development organizations in Europe with a focus on a standard product, with over 320 staff distributed between R&D hubs in Norway, Spain and the UK. UNIT4 R&D is part of Unit 4 NV, which is headquartered in the Netherlands and listed on the Amsterdam stock exchange.

The UNIT4 group is a global cloud-focused business software and services company aimed at helping dynamic public sector and commercial services organizations to embrace change simply, quickly and cost effectively in a market sector it calls 'Businesses Living IN Change' (BLINC)[™] and it has operations in 26 countries, across Europe, North America, Asia Pacific and Africa.

Due to the growth of our R&D center in Granada, we are looking for people with the following profile:

Mobile Software Developer

If you are looking for a challenging position in a leading software development environment, this job could be the one for you!

The position is for the Product Development team in UNIT4 R&D and the role is based in Granada.

Responsibilities and tasks:

- Research and development of HTML5/Javascript based mobile touch solutions for Agresso Business World.
- Ability to help defining goals, and follow them until successful completion, while being part of a small team.
- Deliver high quality code. Give an early warning if not able to deliver according to time/quality.
- Follow code standards and best practices for Test Driven Development and Scrum.

Qualifications and skills:

- Bachelor degree in Software Engineering, or similar qualification.
- Up to date experience in HTML5, javascript and CSS. Proven skills in using JavaScript libraries like Ext.JS, jQuery or others.
- Technically skilled. Excellent knowledge in programming/object oriented programming.
- Experience in developing mobile applications is preferred.
- Fluent English skills (written and verbal).
- Experience in working in teams.

Personal qualities:

- Interest in mobile applications and mobile interaction design.
- Enthusiastic about user experience. Simplicity and good design.
- Self-driven and goal oriented.
- Responsible and Quality minded.
- Strong communication skills, team player.

We offer:

- Opportunity to participate in the development of one of the best ERP solutions in the world. We currently develop native apps for iOS and Android, and we want to extend the team to be able to deliver web based mobile apps as well.
- Challenges and benefits of working in an international environment while being based in Granada.
- High level of flexibility and independence.
- Professional growth.
- Flexible working hours.
- Social environment categorized by enthusiasm and integrity.

You can send your CVs via email to inford.spain@unit4.com or through the Infojobs web site.
