Application for incoming students

The University of Granada has an **on-line Application Procedure** for incoming students. **Detailed instructions and on-line Application can be found at the International Relations Office website and the associated folder.**

First of all you must know what your status is:

- Free Mobility (NO ERASMUS) student

If you do not know the difference, please read carefully this information. It is **very important** to apply using the appropriate application status.

Keep in mind that in Spain, undergraduate degrees are four years long. Therefore, you can be nominated as an undergraduate student while being in a master's program at your university. If your nomination is not for an undergraduate degree, but for a master's degree, then please contact epinternacional@ugr.es. They will assist you with your enrollment process.

Application deadlines
